Cosa legge una fotografa di professione, una che insegue in giro per il mondo architetture, oggetti, spazi, persone, quando legge un libro illustrato? Cosa vede con il suo obiettivo davanti agli occhi, quando guarda un libro del genere? La nuova rubrica di Giovanna Silva inaugura un nuovo modo di recensire i libri, leggendo e guardando, non solo parole ma anche immagini, immagini che sono parole: leggere, guardare, scattare.

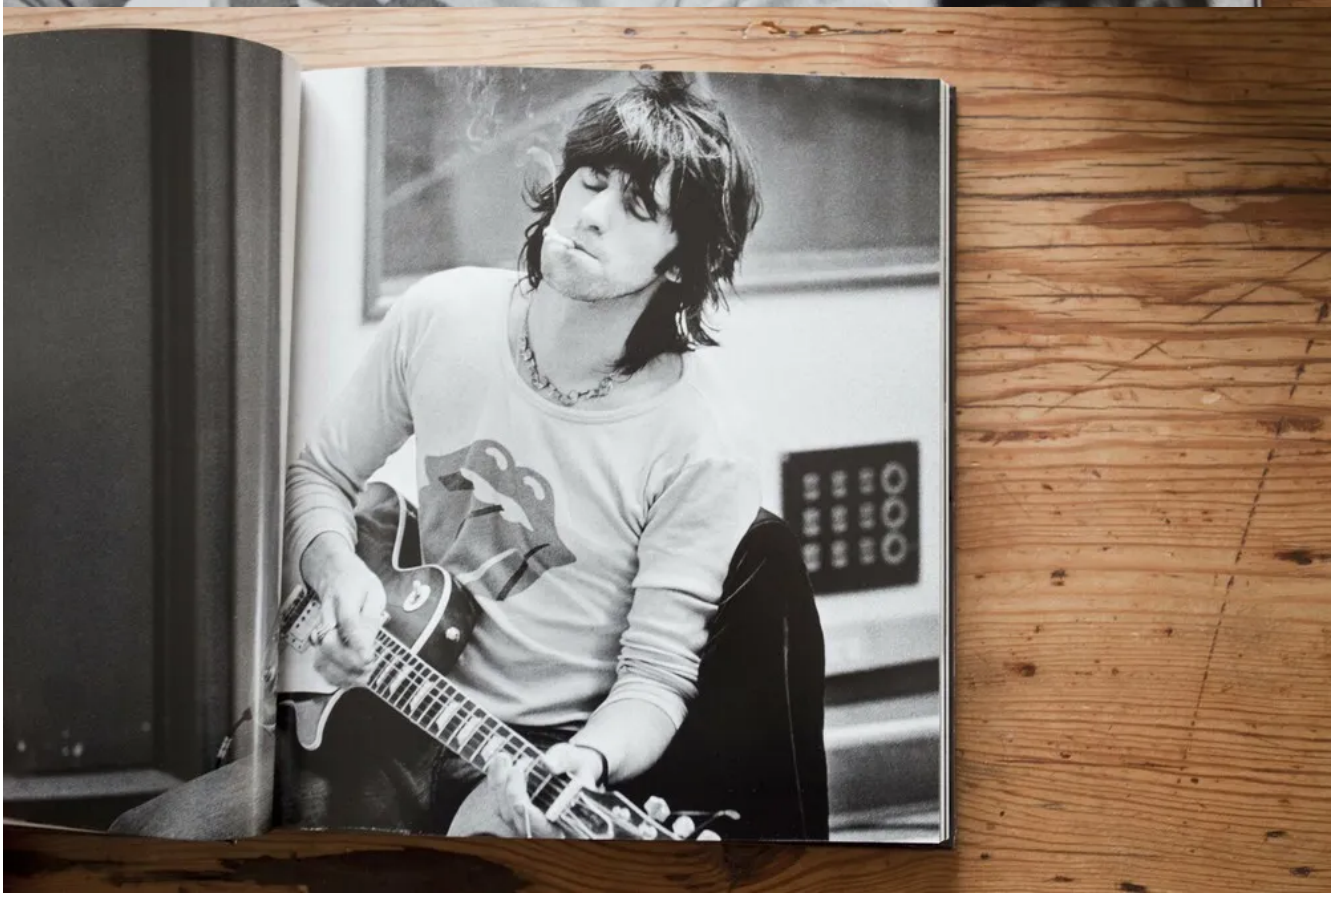

Il libro recensito è Jim Marshall, *The Rolling Stones,* 1972, Gallucci Editore; l'inviato di Life visse con il gruppo musicale una settimana e li ritrasse con le sue fotografie.
